Awe-Inspiring Advertisements: Becoming More Informed Consumers 3rd Grade Economics

Stage 1 – Desired Results		
	Trans Students will independently use their learning to, giv plan to promote consumer spending on their produc	ven a struggling company, create an advertising
Established Goals	Mean Understandings Students will understand that People use money in certain ways based on their needs, wants, and outside stimuli. Advertising techniques impact the spending habits of specific target audiences.	 Essential Questions In what ways do people use money? How does advertising affect consumer decision-making?
Established Goals Social Studies: TEKS 3.6A- Students will identify ways of earning, spending, saving, and donating money Science: TEKS 3.3B- draw inferences and evaluate accuracy of product claims found in advertisements and labels such as for toys and food ELA: TEKS 3.16B- explain how various design techniques used in media influence the message (e.g., shape, color, sound)	 Knowledge Students will know Advertising is a form of marketing communication meant to promote a product or idea Marketing is the process of selling or promoting goods and services A jingle is a catchy tune meant to help consumers remember a product or idea A <u>slogan</u> is a short catch phrase meant to help consumers remember a product or idea A logo is a visual representation meant to help consumers remember a product or idea Bright colors and sound effects are visual and auditory stimuli meant to excite and attract consumers about/to a product or idea Star Power is a technique in which famous figures endorse a product or idea A mascot is a character meant to symbolize an organize a product or idea Humor is a technique used to make viewers laugh in order to promote a positive opinion of a product or idea To <u>earn</u> money means to obtain it in exchange for a good or service To <u>spend</u> money means to pay it in exchange for a good or service To <u>spend</u> money means to pay it in exchange for a good or service To <u>donate</u> money means to give it to a good cause, such as a charity 	 Skills Students will be able to Identify ways that people use money Identify advertising techniques and how they are aiming to influence the consumer create a persuasive advertisement based on marketing research

Stage 2 – Evidence		
CODE (M or T)	Evaluative Criteria (for rubric)	
Т	see rubric	Performance Task(s) Your boss has brought you on as a consultant at the Yum-Me drink factory. This company is struggling, and has asked you to help by creating an advertising plan to promote sales. The first step is to survey consumers in 3-4 categories chosen from the following: flavor color of packaging shape of packaging scent color of product mascot Next, using your research data, you must use your budget (\$100) to make changes to the product and create an advertisement to be displayed to consumers. Advertisement options can be chosen from: Video commercial Audio recording 1-page magazine spread Billboard Jingle/song Each change made to the product AND your final advertisement will all cost money from your budget. Advertisements should include at least 4 techniques studied during the unit. Advertisements will be displayed/shown to consumers for a week, and consumers will then vote on which product they would most like to buy.
		Written reflection: Which advertising techniques did you use in your advertisement? What was the purpose of the advertising techniques you chose? (2 options for this are attached below)
		Stage 3 – Learning Plan
CODE (A, M, T)		Pre-Assessment How will you check students' prior knowledge, skill levels, and potential misconceptions? Students will view a 7-Up ad and answer the following questions: 1) What is it? 2) Why was it created? 3) How do you know? 4) Who do you think created this?

	*Pre-assessment document attached	
	Learning Activities	Progress Monitoring (e.g., formative data)
	 Day 1: Chalk Talk- Essential Question: In what ways do people use money? Students brainstorm in writing on chart paper, then share with a group and then whole class- teacher notes responses on board Show students video: <u>https://www.youtube.com/watch?v=yD6iVjViT4Y</u> and discuss the ways the characters are using money 	Chalk Talk responses
A	 Define the terms earn, save, spend, and donate Have students fold a paper into fourths and title each section with one of the terms above. Have them brainstorm one example of each and 	Discussion
Μ	draw, label, caption in each box. Have students share with a partner and add new terms to word wall (if applicable).	Draw/Label/Caption
	Day 2:	
A	 Return to Essential Question: In what ways do people use money? Zoom in on earning money and saving money Morning mini-lesson- teach about earning and saving; students brainstorm ways they can earn money and reasons people save money Set up daily activity- Students will earn "money" (behavior bucks, points, etc.) for their work throughout the day. They can choose to then spend those on lollipops/prizes as they earn, or they can choose to save. Set out a jar for students to turn in money and a bowl of lollipops/prizes so that students can exchange their money if they choose. Proceed with the day as normal, paying students for their "services" and/or behavior throughout the day. End of day- Have students bring their money to the carpet and discuss what they had to do to earn it; next, discuss the choice of saving and have students share their choice and why they made that choice. For students who saved enough of their money (\$10 or higher- teacher choice), give them a homework pass or some other, larger prize. Discuss how saving money can be beneficial, and have students do an exit ticket reflection about the day's activity. 	Brainstorm Discussion Exit Ticket
	Daw 2	
A	 Day 3: Return to Essential Question: In what ways do people use money? Zoom in on spending money and donating money Watch video (Schoolhouse Rock "Where the Money Goes"): <u>https://www.youtube.com/watch?v=1MeZvhQyTe4</u> and discuss expenses that their families have (optional if time- have 	
Μ	 students make a poster titled "where my money goes" and have them visually brainstorm ways their families spend moneyshare with a partner or table group)- take note of whole group discussion Discuss money donation as a specific type of spending- why do we donate money? Why is it important for people to donate? What types of organizations need donations? Read aloud the book <i>One Hen</i> and discuss how a donation helped change the character's life and community 	Poster Discussion

	Day 4:	
	 Guiding question: Why do people choose to spend or donate their 	
	money in certain ways?	
	 Quick write: What causes you/ your family to spend money? Share with 	Quick Write/ Discussion
	a partner or table, then with whole group	
	 (Hopefully, advertising will come up as a topic in discussion)- BIG 	
	IDEA: Advertising is meant to make people want to spend	
А	money on goods and services	
	 Zoom in on advertisements 	
	 Define advertisement and marketing- add to word wall 	
	if applicable	
	 Watch some advertisements together: 	
	Nerf guns:	
	https://www.youtube.com/watch?v=af91FUgY3WU	
Μ	Shopkins:	
	https://www.youtube.com/watch?v=06WUc7y8vak	Discussion/ Turn and Talks
	Hotwheels:	
	https://www.youtube.com/watch?v=BNm7i0w1o50	
	■ Juicy Fruit:	
	https://www.youtube.com/watch?v=JuHMQ0QpH44	
	Mountain Dew:	
	https://www.youtube.com/watch?v=ql7uY36-LwA	
	• Guiding questions as you watch: 1) what is the product? 2) who	
	is the audience? 3) what does this ad do to the viewer and why?	
	Dave Fr	
	Day 5:	
	 Introduce Essential Question: How does advertising affect consumer 	
	decision-making?	
	 Review some of the advertisements from yesterday or look at some of the ads in this video: 	
	https://www.youtube.com/watch?v=gsDTKCSkHZw&t=367s	Discussion
A, M	• What do the advertisers DO to get people to buy their products?	Discussion
Α, ΙΨΙ	Take note of students' responses	
	 Read Toy Ad Tricks article (original here: 	
	<u>http://www.frankwbaker.com/toy_ad_tricks.pdf</u> ; retyped for ease of	
	reading and attached below)	
	 Supplement reading article with viewing ads and discussing 	
	which toy advertisement tricks from the article are being used in	
	these ads and why.	
	Days 6-7:	
	 Return to Essential Question: How does advertising affect consumer 	
	decision-making?	
	 Begin discussing advertising techniques- 	
	 A jingle is a catchy tune meant to help consumers remember a 	
	product or idea	
	 A <u>slogan</u> is a short catch phrase meant to help consumers 	
A	remember a product or idea	DIscussion
	 A logo is a visual representation meant to help consumers 	
	remember a product or idea	
	 Bright colors and sound effects are visual and auditory stimuli 	
	meant to excite and attract consumers about/to a product or	
	idea	
	 <u>Star Power</u> is a technique in which famous figures endorse a 	
	product or idea	

• A <u>mascot</u> is a character meant to symbolize an organize a	
product or idea	
 <u>Humor</u> is a technique used to make viewers laugh in order to 	
promote a positive opinion of a product or idea	
 Create an anchor chart or other display of these techniques to keep 	
posted in the room for the remainder of the unit	
 View/listen to ads and identify techniques used and WHY they were 	
used- who is the audience? What is the point of using this technique?	
Can use ads previously linked, or the ones below:	
Video ads:	
 Trix: <u>https://www.youtube.com/watch?v=06iYmZff7Fk</u> 	
 Barbie Kitchen: <u>https://www.youtube.com/watch?v=4VIwOkbN0qE</u> 	
 Easy Bake Oven: <u>https://www.youtube.com/watch?v=lreImESIrG0</u>

т

to buy		
*Be su expose	Present scenario to students and put them in groups of 4. Hand out the poll sheet, as well as the advertising plan cost sheet. Have them brainstorm which type of advertisement they would like to create, as well as which categories they would like to focus on and add the costs together. They must remain under the budget of \$100 to spend on their advertising plan. I're to discuss the differences in types of advertising and how viewers are ed to them/how effective they are. Next, have them fill in on their poll sheet which categories they will be surveying, as well as the options they would like to offer based on group discussions. Explain the data collection process and review tally charts if needed.	Discussion & calculation
Day 9:		
•	Survey day! Set up a time with your partner class to have students come survey. Students should mingle with partner class and offer options for each category they are focusing on in their survey. They should tally each time a student picks a certain option, and try to get as large a sample size as possible. Each student should collect data on their own sheet, which will be combined with the rest of their group's data later. Students meet with their groups and combine data sets in order to find most popular options from target audience. These will be the claims that should appear in their advertisements. Students discuss what their new drink product will look/taste/smell like for consumers and draw a sketch.	Survey data & sketch
	 Students create their advertisements with claims from the survey data they collected. They should already have chosen which type of ad they want to create, and they should follow time/space guidelines set out by teacher for billboards, videos, and audio recordings. When students are finished, have them present to class and then have ads displayed in partner classrooms over the course of a week. Commercials, jingles/songs, and audio ads should be played for students once per day. Billboards should be hung in classrooms for the week. Copies of magazine spreads should be distributed to students once per day for the week. end of the following week, partner classes should fill out a short asiveness survey for each advertisement they have viewed. (Survey 	Observations

Welcome to the Yum-Me Drink Factory!

You are a consultant that has been brought in to help us out! We are struggling with our sales, and we hear that you have experience with advertising techniques that might help us save our company!

Your task is to use a budget of \$100 to create an advertising plan to help us sell more products. You will be responsible for surveying a group of people and using their responses to to create a product AND advertisement that will appeal to that group of people.

Your goal is to persuade our audience that they should buy our drinks- our company's success depends on you! Good luck!

4. Who do you think created this?

Toy Ad Tricks

(retyped from original article here: http://www.frankwbaker.com/toy_ad_tricks.pdf)

In a TV ad for Nickelodeon's *Squand*, kids make perfect sand sculptures. "The colors never get mixed together, and it looks so fun and easy to do," says Megan, 10. But when Megan tried the real toy, "the colors mixed immediately and couldn't' be separated. "The sculptures were hard to do, and they fell over." When she tried to remove the *Squand* from the tank, it was "mush, not sandy and dry" as in the commercial. Megan felt disappointed by the toy-and misled by the ad.

Advertisers are supposed to follow rules to keep toy ads from misleading kids. In general, the rules say ads must show toys in a more realistic way. But advertisers also want you to buy their toy. So they sometimes make toys look better than they really are.

Check out these advertising tricks of the trade. Once you know them, you'll be a smarter ad-watcher!

Trick #1: Show lots of stuff you don't get

"I tried Micro *Machines Super Van City* at my friend's house," griped Will, 10, "and they don't give you half the cars they had in the ad." If a large number of parts are shown in an ad, "it may look impressive," says Dean Forbes, an attorney for the FTC (Federal Trade Commission, the part of the government that looks out for deceptive and unfair ads). "But it could also mislead kids into thinking they'll get all the toys that are shown."

Honest advertisers say things like "accessories sold separately," to make it clear what does and doesn't come with the toy. But some ads say it really quickly or flash small print on the screen. Like Will, you might be too excited about the toy to see or hear it.

Tip: Listen and watch carefully for what does - and doesn't - come with a toy. And read toy packages to find out what's included before you buy.

Trick #2: Shows toys bigger than they are

In a close-up shot, Merwees dolls fill up a whole TV screen. That makes them look larger than their actual two-inch size. Ads are allowed to use close-ups, as long as they also show the toy's actual size. Close-ups might make it seem like you're getting more than you would. Kids should look at the entire ad - not just the close-up - to see what they're getting.

Tip: Pay attention to the size of a toy when it's in a kid's hand - not when it's by itself.

Trick #3: Cut the boring parts.

An ad for *Super Soaker* water guns shows kids doing "almost no pumping," says Alex, 12. But Alex knows that the real toy requires lots of pumping to build up water pressure.

Ad makers film kids using the product for a long time. Then they "only use good parts" to show kids having fun, explains ad expert Art Silverblatt.

Tip: Try a toy at a friend's house or in the store before you buy it. Then you'll know how it really works instead of relying on what the ad shows.

Trick #4: Sell a fantasy world

In the TV ad for *Goosebumps: Terror in the Graveyard Game,* a kid disappears in a cloud of smoke. Another kid loses his head. In another commercial, *Flip n' Dive Barbie* bends gracefully and dives into a pool. Splashing noises make her dive seem real.

Animation and special effects can place toys in a fantasy world. That setting can exaggerate how much fun the toys are. It seems like you'll be part of the fantasy if you buy the toy.

But the fantasy you see is not for sale. All you get is the toy. As 10 year-old Shu discovered, the *Goosebumps* game "only lasted about 10 minutes, and it was really boring." And ZILLIONS readers ZAP Barbie ads every year for showing things a doll can't do by itself.

Tip: When watching ads with animation or special effects, ask yourself: What fantasy is this ad selling? Pay attention only to the part of the ad that shows *real* kids playing with the *real* toy.

Trick #5: Use kids' voices

Kids' voices in an ad might make you think kids really enjoy the toy. But those kids are usually actors reading a script. In a recent ad for Wendy's, a kid describes *Peanuts* toys you can get there. Silverblatt says kids pay more attention when the sales pitch comes from someone their age.

Tip: If kids are talking, realize they're probably reading a script. Imagine an adult saying the words instead. Do you feel differently about the toy now?

Trick #6: Use the "right" kids

Toy ads show kids who are about a year older than the kids they're trying to sell the toy to. Why? "Advertisers think kids will be attracted to them and look up to them," says Silverblatt. Advertisers also pick kids who think other kids might want to be like. You might think the toy will make you popular with this cool, older group, says Silverblatt. Or the ad might "make you feel left out unless you have that toy."

Tip: Ask yourself: How old do the kids in the ad look? Do I want the toy itself-or do I just want to be like those kids?

Trick #7: Use lots of color

Ever see a drab-looking commercial? We didn't think so! A recent *Silly Slammers* ad features brightly colored clothes, furniture, and walls - not to mention the *Slammers* themselves! "Bright, throbbing colors in ads stir up excitement in kids," says media expert Kathryn Montgomery. That excitement might make you buy the toy, whether or not the toy is a good one.

Tip: Note how many colors you see in toy ads. Which belong to the toy itself-and which are there just to give the ad more pizazz?
